Utility Billing Frequently Asked Questions

Are Cost Adjustments New to the Utilities?

No. Like most all other utilities, the City has long used cost adjustments to recover fluctuations in the market pricing of energy. On previous utility bill formats, this was all rolled into one line item. The new bill format unbundled those items.

What is an Electric Cost Adjustment?

This reflects the increases/decreases in the City's cost of power purchased wholesale from the Kansas Power Pool.

What is a Purchased Gas Adjustment?

This reflects the increases/decreases in the City's cost of natural gas purchased from the Kansas Municipal Gas Agency and its suppliers.

Why is there a City Tax on Electric and Gas?

The State of Kansas requires utilities to charge sales tax on these utilities.

What Does KWH, CCF or GAL Represent?

These represent units of measure for each utility. KWH means per kilowatt hour used. CCF means per one hundred cubic feet used. GAL means per one thousand gallons used.

How Are Utility Rates Established?

Utility rates are set by ordinance adopted by the Winfield City Commission.

Who Do I Call If I have Questions?

Our customer service representatives are ready to assist you at (620) 221-5500.
